PROFESSIONAL EXPERIENCE

Software Engineer

ISKCON New Vrindaban

Mar 2025 - Present

Moundsville, WV

- Launched an **AI travel concierge** using **Vapi** and **GPT APIs** to automate inbound calls, bookings, availability, events, schedules, directions and FAQs; cut inquiry response time **70%** and tripled self-service adoption.
- Developed an **AI demand forecasting engine**, analyzing pilgrim traffic and historical booking data to optimize inventory and adjust lodging/retail rates; reduced waste **18%**, lifted occupancy **30%**, and profit **22%**.
- Produced a QR-based **tour platform** with voice narration; enabled self-guided exploration & raised engagement by **40%**.

AI Engineer (Full-Stack Systems)

HCA Healthcare

Mar 2024 - Feb 2025

Chicago, IL

- Architected and shipped a **full-stack AI clinical operations assistant** handling **1200+** simulated patient inquiries/month, scheduling FAQs, and case handoffs; reduced front-desk coordination workload by **20 hours/week** across hospital workflows.
- Designed an end-to-end **LLM + RAG system (PostgreSQL + FAISS)** indexing **8K+** clinical documents with deterministic fallbacks, improved answer accuracy by **28%** while minimizing hallucinations by **35%** in **500+** healthcare contexts.
- Productionized with **React/Next.js + FastAPI**, enabling real-time **SSE** streaming and reliable, low-latency AI workflows.

Technical Operations Executive

Hexaware Technologies

Feb 2023 - Jul 2023

Navi Mumbai, India

- Developed **Python + SQL pipelines** to analyze and resolve processing delays across **1000+** immigration cases (visas, passports) monthly, decreasing query resolution time by **35%**.
- Built **Power BI** dashboards to track real-time application status and timelines, increasing team efficiency by **20%**.
- Led **30+** weekly client sessions to troubleshoot technical/document issues on Passport Seva portals, lifting CSAT by **60%**.

Software Developer Intern

Vigo Infotech Pvt Ltd

Mar 2022 - Sep 2022

Mumbai, India

- Engineered an **ERP system (Spring Boot, PostgreSQL, Redis)** to manage shifts, asset tracking, and attendance across multiple security firms reducing operational errors by **25%**.
- Created a **Flutter-based mobile app** integrating **Google Maps** and **REST APIs**, automating real-time attendance tracking and document verification, saved **20+ hours/month** in reporting time.

PERSONAL PROJECTS

MCP-based AI Customer Support Orchestrator. [\[Live Demo\]](#) [\[GitHub\]](#)

— *FastMCP, PostgreSQL, LLM, SSE*

- Created a scalable support automation platform using **MCP** to classify queries via **LLM**, generate **Jira tickets**, send **Slack alerts**, and **draft/send emails**, eliminating **90%** of manual triage and workflows.
- Deployed with **Docker (Render, Vercel, AWS RDS)**, streaming real-time via **SSE** and processing **100+** queries in batch.

Fyndit. [\[Website\]](#)

— *Next.js, Typescript, Firebase, Mapbox*

- Launched a **student marketplace** and housing with real-time chat, **location-based search**, and **.edu-verified** authentication.
- Built and grew user base to **100+** active students, consolidating fragmented WhatsApp groups into one platform.

LLM-based AI Interviewer. [\[GitHub\]](#)

— *LLaMA 3, RAG, Semantic Search, TTS, React*

- Crafted an AI interviewer generating **context-aware** questions from resumes and JDs using **FAISS**; added **TTS** for voice.
- Engineered **multi-turn** memory for conversational coherence; prototyped a text-first path to improve response quality.

EDUCATION

Master of Computer Science

Illinois Institute of Technology | GPA: 3.50/4.0

Aug 2023 - May 2025

Chicago, IL

Bachelor of Computer Engineering

Savitribai Phule Pune University | GPA: 3.55/4.0

Aug 2018 - Jul 2022

Nashik, India

SKILLS

Languages

Python, SQL, Java, Javascript, Typescript, Dart, C++.

Technologies/Frameworks

React, Next.js, Node.js, FastAPI, Flutter, REST APIs, Spring Boot, Microservices.

Databases and Cloud

PostgreSQL, Firebase, MongoDB, Redis, AWS (EC2, RDS), Elasticsearch, GCP.

AI and ML

LLM, NLP, RAG, Vector DB (FAISS), LangChain, Autogen, MCP.

Tools and Practices

Git, Docker, Linux, Nginx, Power BI, Agile/Scrum, Shell Scripting.
